

GSCELLTRACK/38B (discontinued)

Celltrack 38 500mm x 500mm x 38mm black small panel

SUPERSEDED BY

Stock code	Description	
GSCELLTRACK/LP38BB	Celltrack 38 1,200mm x 800mm x 38mm black large panel	

CHARACTERISTIC	VALUE	
Description	Celltrack 38 500mm x 500mm x 38mm black small panel	

SPECIFICATION

GENERAL INFORMATION

Stock code	GSCELLTRACK/38B
Range	CellTrack

GEOCELLULAR PAVING

Material	100% recycled High
	Density Polyethylene
	(HDPE)
Colour	Black
Cell shape	Hexaganol
	(Honeycomb)
Height	38 mm
Cell diameter	60 mm
Open space	>90%
UV	UV stabiliser
Weight per unit	+/- 950g
Weight per m2	+/- 3.8kg
Breaking strain	+/- 135 t/m2
(unfilled)	
Biological resistance	Very high
Chemical resistance	Very high
Connection system	Integrated
	connection system

NOTES

Gravel pavers should be overfilled by approximately 10-20 mm (1-2 cm) above the top of the grid cells.

Why Overfill?

- ► To hide the grid: A slight overfill conceals the plastic structure of the paver, making the surface visually continuous with the surrounding area.
- ► To allow for settling and compaction: Gravel will settle over time due to foot or vehicle traffic. The overfill compensates for this, maintaining coverage and performance.
- ► To maintain a smooth surface: Without enough overfill, the tops of the grid can become exposed, especially in high-traffic areas, which may lead to discomfort, wear, or damage.

This is the small panel variant of CellTrack, with panels available in 500mm x 500mm sections and depth options of either 38mm or 50mm. A large panel variant is available.

Packaging:

Quantity per pallet	m ² per pallet	Quantity per fill truck load	m ² per full truck load	Dimensions of pallet
240	60m ²	5,760 (24 pallets)	1,440m ²	110cm x 110cm x 235cm (one-way pallet)
