

GSCELLTRACK/50B (discontinued)

Celltrack 50 500mm x 500mm x 50mm black small panel

SUPERSEDED BY

Stock code	Description
GSCELLTRACK/LP50BB	Celltrack 50 1,200mm x 800mm x 50mm black large panel

CHARACTERISTIC	VALUE
Description	Celltrack 50 500mm x 500mm x 50mm black small panel

SPECIFICATION

GENERAL INFORMATION

Stock code	GSCELLTRACK/50B
Range	CellTrack

GEOCELLULAR PAVING

Material	100% recycled High Density Polyethylene (HDPE)
Colour	Black
Cell shape	Hexagonal (Honeycomb)
Height	50 mm
Cell diameter	60 mm
Open space	>90%
UV	UV stabiliser
Weight per unit	+/- 1.2kg
Weight per m2	+/- 4.8kg
Breaking strain (unfilled)	+/- 105 t/m2 (PTV 828)
Biological resistance	Very high
Chemical resistance	Very high
Connection system	Integrated connection system

NOTES

Gravel pavers should be overfilled by approximately 10–20 mm (1–2 cm) above the top of the grid cells.

Why Overfill?

- ▶ To hide the grid: A slight overfill conceals the plastic structure of the paver, making the surface visually continuous with the surrounding area.
- ▶ To allow for settling and compaction: Gravel will settle over time due to foot or vehicle traffic. The overfill compensates for this, maintaining coverage and performance.
- ▶ To maintain a smooth surface: Without enough overfill, the tops of the grid can become exposed, especially in high-traffic areas, which may lead to discomfort, wear, or damage.

This is the small panel variant of CellTrack, with panels available in 500mm x 500mm sections and depth options of either 38mm or 50mm. [A large panel variant is available.](#)

PACKAGING:

Quantity per pallet	m ² per pallet	Quantity per full truck load	m ² per full truck load	Dimensions of pallet
200	50m ²	4,800 (24 pallets)	1,200m ²	110cm x 110cm x 235cm (one-way pallet)
