

## GSCELLTRACK/LP38BB

Celltrack 38 1,200mm x 800mm x 38mm black large panel

CHARACTERISTIC	VALUE
Description	Celltrack 38 1,200mm x 800mm x 38mm black large panel

## SPECIFICATION

### GENERAL INFORMATION

Stock code	GSCELLTRACK/LP38 BB
------------	------------------------

### GEOCELLULAR PAVING

Material	100% recycled High Density Polyethylene (HDPE)
Colour	Black
Cell shape	Hexagonal (Honeycomb)
Length	1,200 mm
Width	800 mm
Height	38 mm
Cell diameter	60 mm
Open space	>90%
UV	UV stabiliser
Weight per unit	+/- 2.8kg
Weight per m2	+/- 2.97kg
Breaking strain (unfilled)	+/- 135 t/m2
Biological resistance	Very high
Chemical resistance	Very high
Connection system	Integrated connection system

## NOTES

This is the large panel variant of CellTrack, with panels available in 1,200mm x 800mm sections and depth options of either 38mm or 50mm, allowing much quicker coverage. [A small panel variant is available.](#)

Gravel pavers should be overfilled by approximately 10–20 mm (1–2 cm) above the top of the grid cells.

### Why Overfill?

- ▶ To hide the grid: A slight overfill conceals the plastic structure of the paver, making the surface visually continuous with the surrounding area.
- ▶ To allow for settling and compaction: Gravel will settle over time due to foot or vehicle traffic. The overfill compensates for this, maintaining coverage and performance.
- ▶ To maintain a smooth surface: Without enough overfill, the tops of the grid can become exposed, especially in high-traffic areas, which may lead to discomfort, wear, or damage.

## PACKAGING:

Quantity per pallet	m <sup>2</sup> per pallet	Quantity per full truck load	m <sup>2</sup> per full truck load	Dimensions of pallet
59	56.64m <sup>2</sup>	1,888 (32 pallets)	1,812.48m <sup>2</sup>	120cm x 80cm x 240cm (one-way pallet)
