

GSCELLTRACK/LP50BB

Celltrack 50 1,200mm x 800mm x 50mm black large panel

CHARACTERISTIC	VALUE	
Description	Celltrack 50 1,200mm x 800mm x 50mm black large panel	

SPECIFICATION

GENERAL INFORMATION

Stock code	GSCELLTRACK/LP50
	BB
Range	CellTrack

GEOCELLULAR PAVING

Material	100% recycled High
	Density Polyethylene
	(HDPE)
Colour	Black
Cell shape	Hexaganol
	(Honeycomb)
Length	1,200 mm
Width	800 mm
Height	50 mm
Cell diameter	60 mm
Open space	>90%
UV	UV stabiliser
Weight per unit	+/- 4.1kg
Weight per m2	+/- 4.27kg
Breaking strain	+/- 105 t/m2 (PTV
(unfilled)	828)
Biological resistance	Very high
Chemical resistance	Very high
Connection system	Integrated
	connection system

NOTES

This is the large panel variant of CellTrack, with panels available in 1,200mm x 800mm sections and depth options of either 38mm or 50mm, allowing much quicker coverage. <u>A small panel variant is available</u>.

Gravel pavers should be overfilled by approximately 10-20 mm (1-2 cm) above the top of the grid cells.

Why Overfill?

- ▶ To hide the grid: A slight overfill conceals the plastic structure of the paver, making the surface visually continuous with the surrounding area.
- ► To allow for settling and compaction: Gravel will settle over time due to foot or vehicle traffic. The overfill compensates for this, maintaining coverage and performance.
- ► To maintain a smooth surface: Without enough overfill, the tops of the grid can become exposed, especially in high-traffic areas, which may lead to discomfort, wear, or damage.

PACKAGING:

Quantity per pallet	m ² per pallet	Quantity per fill truck load	m ² per full truck load	Dimensions of pallet
45	43.2m ²	1440 (32 pallets)	1,382.4m ²	120cm x 80cm x 240cm (one-way pallet)
