

## BUTYL JOINTING TAPE

GTMEM/TAPE/DS50X10

Our Butyl Jointing Tape is a high-performance (permeseal tape) butyl-based mastic double-sided jointing tape for jointing gas and other construction membranes including damp-proof membranes. The quick-release film makes ideal jointing in all types of applications. This tape has really good adhesion to a wide range of surfaces, it's easy to use with little waste and no mess.

### KEY ATTRIBUTES

- ✓ Professional, high tack butyl mastic tape
- ✓ Suitable for vapour barrier membranes and damp proof membranes (DPM)
- ✓ Good adhesion to a wide range of substrates
- ✓ The softer composition makes this product highly conformable
- ✓ Remains flexible throughout its service life

### SPECIFICATION

PROPERTY	VALUE
Colour	Black
Inner Quantity	12
Pallet Quantity	600
Product Length (mm)	10000
Product Width (mm)	50
Product Height (mm)	1.5
Roll Size (mm)	50mm x 10m
Weight (kg)	0.46
Material	Butyl/Siliconised Paper backing
Packaged Length (mm)	150
Packaged Width (mm)	60
Packaged Height (mm)	150
Tape Length (m)	10
Tape Width (mm)	50
