

SINGLE SIDED JOINTING TAPE

GTMEM/TAPE/SS75X50

A premium solution engineered for bonding DPMs. It features a high tack adhesive and the tape itself is reinforced with cross-weave fibreglass, this tape delivers outstanding strength and durability. It's ideal for sealing DPM overlaps or securing membranes to walls, it ensures a dependable, long-lasting seal for maximum protection against moisture infiltration.

KEY ATTRIBUTES

- ✓ High tack adhesive
- ✓ Added cross weave fibre glass for extra strength
- ✓ Seal overlaps in in DPMs and sealing membranes to walls
- ✓ High strength and high durability
- ✓ Adheres well to all common building materials

SPECIFICATION

PROPERTY	VALUE
Colour	White
Inner Quantity	24
Product Length (m)	50
Product Width (mm)	50
Product Height (mm)	0.2
Roll Size	50 mm x 50 m
Weight (kg)	0.43
Material	Polyester/Fibreglass/Rubber adhesive
Microns	170
Packaged Length (mm)	135
Packaged Width (mm)	50
Packaged Height (mm)	135
